

# Swan & Cygnet Wood

## Management Proposals Map

Continue annual clearance of scrub and coppice regrowth from around the pond by volunteers and maintain the dead hedge along the southern edge of the pond to reduce disturbance by dogs.

Extend the 2014 pilot coppice area in the northern part of compartment 1a (4/5 additional stools) to encourage increased light levels for coppice regeneration, monitor results and if successful thereafter expand recruitment of coppice area in liaison with dormouse specialists

Mow path through Cygnet Wood twice a year to a minimum width of 2m

Volunteers to continue to coppice along ride edge to maintain view and create scalloped areas thereby increasing the woodland edge habitat and structural diversity

Install new roadside entrance signs

### Management Proposals Legend

-  Woodland Trust Boundary
-  Sub-Compartment Boundary
-  Sub-Compartment Number  
Area (hectares)
-  Entrance Point (Management)
-  Entrance Point (Public)
-  Public Right of Way - Footpath
-  Public Right of Way - Bridleway
-  Public Right of Way - BOAT/RJPP
-  Permissive Path
-  Overhead Services
-  Underground Services  
(E - Electricity; T - Telecomms;  
G - Gas; W - Water; S - Sewerage)
-  Ditch or stream
-  Pond or Lake
-  Steps
-  Bridge
